RAKESH EGA

+447858602851 | lakeshega135@gmail.com | LinkedIn

As a passionate and innovative front-end developer, I am excited to embark on a career journey that combines my love for design and technology. I am a recent graduate with a strong foundation in web development, and I am ready to leverage my skills and knowledge to contribute effectively to your team.

EDUCATION

University of Hertfordshire, Hatfield   **2022**

Masters in Advance Computer Science | Grade – 4.2/5

Kamala Institute of Technology & Sciences, India   **2019**

Bachelors in Computer Science | GPA – 4.5/5

WORK EXPERIENCE

Web Developer - Regal stay   **2022 - 2023**

Front-end Developer - Coding Grad   **2022 - 2023**

REAL - TIME PROJECTS

- Developing a personal portfolio website to showcase your skills and previous projects. Include sections for your resume, projects, contact information, and a blog.

- Building a weather application that retrieves weather data from an API and displays it to users. Include features like location-based weather and a 5-day forecast.

- Developing a to-do list application where users can add, edit, and delete tasks. Implement features like task prioritization and due dates.

- Building a web-based music player that allows users to upload and play music files. Include features like playlists and volume control.

ACADEMIC PROJECTS

- Developing a personal portfolio website to showcase your skills and previous projects. Include sections for your resume, Amazon, Netflix Clone, and a blog.

- Build a fully functional e-commerce website with features such as product listings, search functionality, shopping cart, and secure checkout process. Integrate payment gateways for a complete experience.

- Building a weather application that retrieves weather data from an API and displays it to users.

- Building a web-based music player that allows users to upload and play music files. Include features like playlists and volume control.

INTERNSHIPS

Engineering Internship, Mentorsity, India   **May 2017 – Oct 2017**

- Assisted in identifying and resolving front-end bugs and issues to improve website performance and user experience.

- Updated and managed website content, including text, images, and multimedia elements, ensuring

content accuracy and relevance.

- Adapted web content to be responsive, ensuring seamless display on various devices and screen sizes.

- Ensured websites complied with web accessibility standards (WCAG) to make them usable for individuals with disabilities.

- Collaborated effectively with cross-functional teams, including designers, back-end developers, and project managers, and communicated project updates and challenges.

- Participated in code reviews to ensure code quality, adherence to coding standards, and identify opportunities for improvement.

- Pro-actively engaged in ongoing learning and professional development, staying updated on the latest front-end technologies and industry trends.

CERTIFICATIONS

Demonstrates proficiency in HTML5, CSS3, and JavaScript, as well as responsive web design and web accessibility issued by Course-era.
